COMPANY PROFILE

Lightwork Consultancy & Management is a 100% citizen owned company, committed to equipping micro, small and medium sized entities build a sustainable future through managing, project management & advisory services.

Established in 2021, the Lightwork team is highly valued for their skills in tender processing, project management and company administration development. We design and deliver projects which ensure our clients have the skills and knowledge to better entrepreneurship development.

Our expertise makes a difference.

Experience

The team has more than 10 years combined experience working with start up companies, transforming, growing and established entities in the services sector.

Vision

Transcend as a global leading professional services firm focused on company management, project management and start up company development.

Core values

Everything we undertake is premised on integrity, professionalism, transparency, reliability and efficiency.

What we do

Our training and consulting services are based on international best practice and concepts.

- Project Management
- Tender Documentation
- Training in Tender Development
- Sourcing

We endeavour to work with start-up, transforming, growing and established entities in strategy implementation, strengthening systems and processes and building capacity and competencies.

How we work with you

You tell us your preferences

After organizing a one on one meeting, we discuss the scope of work and deliverables before we propose a solution.

We do the hard work

We work with you to design tailored tender documents, that meet the requirements with respect to your organization's culture, discourse and budget.

You get peace of mind

When we partner with you, our sustainable solutions ensure you are equipped with the appropriate skills and resources to continue developing.

We hold ourselves to high standards of performance and service. Therefore, we welcome your feedback at any stage of our consulting engagement.
